

## Join Our Volunteer Environmental Educator Team

[bwangphoto.com](http://bwangphoto.com)

*Do you have an interest in the natural world?  
Would you like to learn more about it and share your enthusiasm with children?*

Join Sheldrake Environmental Center's **Volunteer Environmental Educator (V.E.E.) Training Program** and learn to lead hands-on ecology programs. You will gain natural history knowledge and teaching techniques, meet other nature enthusiasts, enjoy continuing education, social gatherings and trips and make a huge contribution to our community.

# Volunteer

Beginning in October, Sheldrake will offer a course on Thursday mornings for those wanting to become **Volunteer Environmental Educators**. The twelve-session course will consist of a combination of ecology and teaching techniques.

As graduates, you will lead pre-trips in the local elementary schools and field trips at the Larchmont Reservoir, the Sheldrake River Trail and at Dog Beach.

*"Our classes have been full of laughter and awe as, one by one, we've begun to really see the world around us in a new light. Mary Davis has been so adept at leading us into a growing understanding and confidence about how to share what we've learned with others. I greatly appreciate Sheldrake for making this great opportunity possible! Thank you!!!*  
V.E.E. Robin Bryne

*"Not only was the course exceedingly interesting, but it was also very enjoyable and taught by a wonderful teacher. Truly, I looked forward to each class. I left with a new perspective on the natural world and am eager to share what I learned with the next generation."*  
V.E.E. Wendy Satin

**Register now for classes starting in October! Class size is limited. Contact Mary Davis at (914)834-1443 or [progdirector@sheldrakecenter.org](mailto:progdirector@sheldrakecenter.org).**

Special thanks to Con Edison for underwriting this year's program.
